

Celebration of 12 Morning Session Learners from Apple Developer Academy @ Infinite Learning as Swift Student Challenge Winners, Honored with Exclusive 3D Printed Plaques

Apple notifies Swift Student Challenge winners ahead of WWDC 2023, here are the prizes

By ZIADY MUBARAQ

The WWDC (Worldwide Developers Conference) event serves as a platform for Apple to showcase their innovation and technological advancements to the world. It is eagerly anticipated by technology enthusiasts and developers alike, as it offers a glimpse into the future of Apple's ecosystem. With a wide range of sessions, work-

shops, and presentations, attendees have the opportunity to learn from industry experts and explore the latest advancements in Apple's hardware and software offerings. For developers, the Swift Student Challenge is a coveted opportunity to demonstrate their skills and creativity. Being selected as a winner among thousands of submissions is a testament to the exceptional talent and dedication required to stand out in the competitive field. The recognition and rewards

received by the winners serve as a validation of their hard work and passion for app development. As a proud recipient of this prestigious honor, I am filled with a sense of accomplishment and excitement for the future. Winning the Swift Student Challenge has opened doors for further growth and opportunities, as well as provided me with valuable experiences and connections within the Apple developer community.

SPORTS

Not Just Code and Design: Learning Club Fosters Learners' Interest and Talent in Sports Activities

By ZIADY MUBARAQ

Not only does the Apple Developer Academy prioritize communities dedicated to coding and design, but it also encourages the formation of diverse Learning Clubs initiated by learners themselves.

Engaging in these Learning Clubs not only fosters team bonding through shared activities but also provides an avenue for learners to discover and explore new places and regions within the vibrant city of Batam. By venturing into uncharted territories, learners not only expand their knowledge but also gain a deeper appreciation for the local culture and community, making their journey at the Apple Developer Academy even more rewarding and fulfilling.

"BADMINTON CLUB"

The Badminton Club has become one of the most highly sought-after Learning Clubs, garnering immense popularity.

"GOGON (GOSIP UNDERGROUND) CLUB"

It is the most positive activity among other Learning Clubs as it typically revolves around discussions about life and worldly matters, providing valuable lessons and enhancing our awareness.

"BILLIARD CLUB"

Billiards in Batam proves to be an affordable sport, drawing the interest of numerous learners who join this learning club for a fun and invigorating experience to refresh their minds and uplift their spirits.

"VOLLEYBALL CLUB"

Volleyball is only applicable in the Rusunawa Kabil area, and it is usually learners residing there who play.

NATIONAL

GBK Stadium Off Limits Ahead of Argentina - Indonesia Friendly Match

The friendly match between Indonesia and Argentina's football team will be held at Senayan Gelora Bung Karno.

Coldplay Music of the Spheres World Tour Jakarta

Coldplay have announced their hugely-anticipated return to Asia and Australia with a special run of stadium shows in November 2023, as part of their record-breaking Music Of The Spheres World Tour.

FOOD

OWILL's CATERING CLUB

With only the price of IDR 17.000 per day (cheaper than your typical canteen), your afternoon will be joyful and your tummy will be happy. All of your burdens will gone, temporarily. 7 Starred Hotel Standard, guaranteed!

Indomaret Food Trucks Take Over NDP Area

Exciting news for food enthusiasts in the Nongsa Digital Park Area as Indomaret, a renowned convenience store chain, has recently introduced their presence through the introduction of food trucks.

FRIDAY STYLES

The trend of matching outfits every Friday

Matching outfits every Friday has evolved into a cherished tradition among learners. Not only it showcases solidarity, this activity also cultivates a blessed atmosphere on Fridays. **TGIF!**

Escape to Bintan Island!

Tips for having a cheap and highly worthwhile trip.

By FAJAR WIRAZDI

BINTAN — This time, a 2-day trip with a packed and satisfying itinerary proved to be quite a challenge when it came to selecting the perfect spots and destinations, especially with a large group of travelers.

The first tip was to choose destinations that were not overcrowded with visitors, ensuring a more private and exclusive trip experience. Accommodation and dining options were carefully considered to be both suitable and affordable, and a detailed rundown was prepared in advance, allowing everyone to simply follow the scheduled activities.

With a well-structured itinerary in hand, every moment of the trip was efficiently utilized.

Learners Participating in Parallel Challenge Engage in 3D Assets Modeling Class

By AMAR AMZARI

In the parallel challenge class session, numerous exciting new topics were explored, leading to a wealth of acquired knowledge. Participants delved into the intricacies of 3D asset modeling, mastering the art of creating visually stunning three-dimensional digital models. They also delved into the realm of game development, crafting engaging 2D games using the powerful SpriteKit framework. Additionally, attendees learned how to bring three-dimensional objects to life through the utilization of RealityKit. With a multitude of thrilling sessions yet to come, the learning experience continues to be exhilarating and enriching.
